ping many minor improvements and conveniences would from time to time be introduced as the necessity for them made itself felt. The passage in Lord Onos's despatch which is of chief interest for us, however, is that relating to the reduction of port charges. How different the history of Hongkong in this respect from that of Hongkong. Instead of the light dues here being reserved for the specific purposes for which they were levied they have been merged in the general revenue of the Colony and have been maintained at a figure far in excess of the cost of the service. Special fees are being levied to defray the cost of the Gap Rock light, but there is no security that when the outlay has been fully covered the dues will be reduced. If the control of the harbour and the light dues were handed over to a Board the revenue would be maintained only at such a figure as might be required to defray the necessary charges and the shipping would get a full equivalent for all dues paid. Such a Board would, moreover, be much more competent to decide on the merits of such a question as that of the laying of a telegraph cable to Gap Rock than the Government. From whatever point of view it be looked at the despatch of the formation of a Harbour and Light-house Board is very obvious.

Lord Lamington has lately been travelling in London.

The New York correspondent of the *Sun* writes in the *Chronicle* telegrams under date of March 5:—The tea crop this year is 27,000,000 pounds and this shortage will cause an increase in the price to the consumer of 10 cents a pound. Hiram Wadell, a tea grower and importer, whose office is in New York, said today that tea imports to this port are so small that the shortage will be caused by the blight, a disease which attacks only the tea plant and which breaks out at irregular periods in the tea plantations of China, India, and Japan. Each year in advance the growers estimate what the year's crop will be. The tea is now being harvested and reports from all points of the tea country are being received. The total amount of tea harvested will be 29,000,000 pounds less than last year. India and Ceylon have not fared so badly. The tea crop of India is estimated at 25,000,000 pounds and that of Ceylon at 12,000,000 pounds. The shortage in the crop will force up the wholesale price of tea from an average of 18 cents a pound, according to Mr. Wadell, to 24 cents a pound. The wholesale dealers will add about 4 cents to this increase, so that tea-drinkers will have to pay 10 cents more a pound than they did last year.

On play being resumed the Club at once took the initiative and a couple of corners were gained in quick succession, but nothing was scored from them. Key then got possession and well backed up by Stevenson changed the venue of the game for a time. Sharp then took the ball and heaved it into the goal, but it was deflected by the goalkeeper. The ball then fell to the goalkeeper and he kicked it over the bar. The ball then fell to the goalkeeper and he kicked it over the bar. THE AMERICAN MAIL.

THE O. & O. steamer *Belgia*, with the American mail of the 10th inst., arrived here yesterday morning. The following telegrams are taken from our San Francisco files:—

THE QUEEN AND THE PRINCE OF WALES.

THE EMPRESS FREDERICK and suite were met here by the German Minister and received an ovation at Windsor. A banquet will be given to the Emperor and Empress on the 10th inst. A reception was given by the Queen and the Prince of Wales at Portsmouth yesterday. It appears that the Queen and the Prince of Wales are planning to visit the Channel Islands in the near future.

THE DIKE SCANDAL REOPENED.

A long statement has been issued and is now being circulated among the directors of the Forest of Dean, Division of Gloucestershire, on behalf of Sir Charles Dilke. On February 25th it was announced that Sir Charles Dilke had been elected to the office of President of the Liberal Association for the year 1902-1903.

KOREA.

There is nothing of great news to mention from Korea at present. The situation in Korea is still very unsettled. The Japanese are still in possession of the Korean peninsula and the Korean people are still suffering from the effects of the Japanese occupation.

PRIME HAVANAS FROM CHINESE TOBACCO.

The *San Francisco Chronicle* publishes the following:—

It has been fairly well established by the *Chronicle* that the Chinese are largely concerned in attempts to introduce spurious brands of imported cigars into the local market. From evidence obtained it would seem that the system of fraud extends into Cuba itself, where high grade tobacco is being smuggled into the country and then re-exported to the United States.

THE INDIAN OCEAN.

Sir Charles Gavan Duffy has written a letter to the *Freeman's Journal*, in which he says the policy of independent opposition which Parnell has so far carried on successfully originated in 1897 with the Irish Confederation. He says, with the exception of two Bishops, the Irish Catholic "Episcopate" allied the Independent party with all their power and backed them to the hilt. Eventually, he adds, the Independents became reduced by intrigue and corruption from fifty to five members. He says that the Irish party is now in a state of anarchy and that there is no more hope for the Irish cause than there is for a corpse on a dissecting table.

A BRIEF WHICH CAME OVER THE DOOR.

The *New Review*, published today, leads off with the following new poem by Lord Tennyson, called "A Song":—

A MANCHESTER ROMANCE.

There is a peculiar case at Clitheroe, near Manchester. Three years ago an American man, called a Miss Hall, and son left her, going to America. She was a very beautiful woman and was very popular in the town. She was a very beautiful woman and was very popular in the town. She was a very beautiful woman and was very popular in the town.

BETTING IN FRANCE.

It is stated that the French Jockey Club will transfer its races to Belgium in order to continue betting operations. The Jockey Club has been in a state of financial difficulty for some time and has been unable to pay the bets on its races. It is now proposed to transfer the races to Belgium, where betting is still legal.

FRANCE AND GERMANY.

It was remarked at a court case yesterday that the Emperor and Empress of Germany were the only monarchs in Europe who were not married. The Emperor and Empress of Germany were married in 1871 and have since then been the most popular monarchs in Europe. They have many children and are very popular with the people.

DIPLOMATS AND POLITICIANS.

THE INCREASE OF THE GERMAN NAVY.

During the debate on the motion for the second reading of the navy budget in the Reichstag yesterday Herr Richter said it was impossible for the country to bear the rapidly increasing burden which would be imposed by the increase of the German navy. He said that the German navy was already too large and that the increase would be a great burden on the country.

ADMIRAL KNOTHMAN, SECRETARY OF STATE.

Admiral Kothman, Secretary of State for the Marine Department, did not deny Richter's statement, and admitted that the German navy was already too large. He said that the German navy was already too large and that the increase would be a great burden on the country. action. It was not the Emperor's business to look for the motives of these outbreaks. The Emperor is merely a temporary monarch and his only duty is to maintain the peace and order of the country. He is not responsible for the actions of his subjects.

By his personal influence the Emperor has succeeded in preventing the passage of the proposed addition to the navy bill. This has been a great success for the Emperor and has been a great relief to the country. The Emperor has been a very successful monarch and has been very popular with the people.
